## EDITORIAL

Jurnal Widya Medika Volume 7 No. 1, April 2021, is our sixth online publication after becoming an electronic journal in October 2018. The current pandemic has highlighted the importance of dissemination of scientific knowledge. Therefore, I am grateful for the consistent effort of the editorial team and all our contributors that have allowed us to continue to share compelling discoveries with the scientific community. Our journal is indexed in Google Scholar, Bielefeld Academic Search Engine (BASE), and Garba Rujukan Digital (GARUDA, Ministry of Research, Technology and Higher Education's Index), and Crossref. Since the first online publication, we have had 31,584 views, about 90% of which were Indonesian visitors, while the remaining 10% were from various countries around the globe, including the United States, China, and Russia. As a nationally accredited journal, listed in various indexes, we hope to be able to consistently present high-quality articles to a wide audience. As we strive to continuously improve various aspects of our journal, we are perpetually moving closer to realizing our vision of becoming a global scientific communication media between researchers, academics, and the public, to advance scientific knowledge and aid the development of Indonesia.

## DISCLAIMER

The information, opinions and views presented in this journal reflect the views of the authors and contributors of the articles and not of Jurnal Widya Medika or the Editorial Board.

Although every effort is made by the editorial board and the publishers to see that no inaccurate or misleading data, opinion or statement appear in this journal, the data and opinions appearing in the articles herein are the responsibility of the contributors concerned

Jurnal Widya Medika accept no liability whatsoever for the consequences of any such inaccurate or misleading data, information, opinion or statement.
